

Peonies
VII

"Life is a series of natural and spontaneous changes. Don't resist them; that only creates sorrow. Let reality be reality. Let things flow naturally forward in whatever way they like. ."

~Lao Tzu

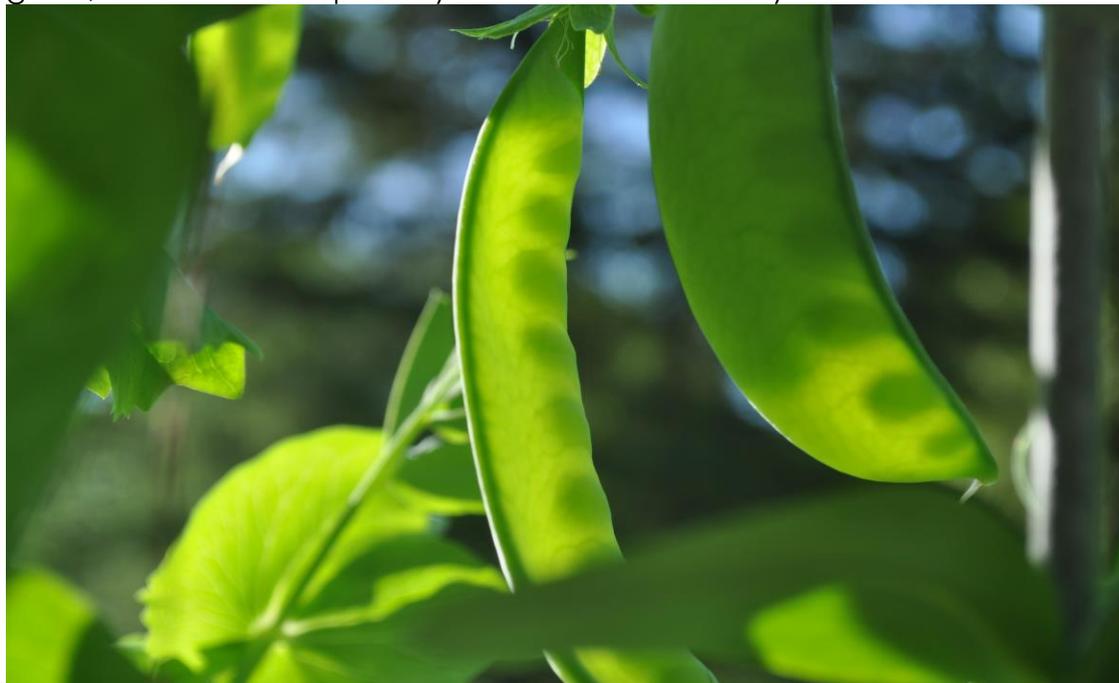

"For after all, the best thing one can do when it is raining is let it rain."

~Henry Wadsworth
Longfellow

Acceptance....

Our yard like any yard has its good days and days where it is less than perfect. It really is a great metaphor for life. I remember when I would have company coming how I would scramble to make sure everything was perfect, nothing out of place and sparkling. Now, I do my best each day but have completely let go that illusion of perfection. If I see a weed I pull it but if things get behind it is really okay. I know that I will get caught up when I can and I own my choices. If I have company coming I can focus on them and never need to apologize for what they probably wouldn't notice anyway. I accept the reality of my busy life, love it actually. The good, the bad and especially the moments of messy chaos.

June Fun Facts....

"Filled with Food"

June is filled with many National Food Holiday including; Candy, Cheese, Dairy, Fresh Fruit & Vegetable, Seafood, Steakhouse and Turkey Lovers. Turkey? I think it is maybe just marketing run amok! I am all over the veggies this month making Kale & Cilantro smoothies. Delicious! Since it is also Iced Tea month I am going to plant a Camellia Sinsensis and start making my own tea.

It is also the month that celebrates Roses, so I will include pictures of some of my favorites.

Our warmest wishes to all the Father's out there, that your day of celebration includes a huge thank you for all that you do!

What's Growing on...

News & Noteworthy

June has started with a heat wave! So irrigation is our number one priority. All systems we manage should be on by now but we are responding to breaks or leaks as quickly as we can. Usually within 24 hours. We are also finishing up the major pruning but have to wait for over-cast days. Let us know if you would like to get onto our calendar for mulch or other yard projects. We also have a Landscape Architect on staff now. Guy Feldman, is our Senior Designer and is knocking it out of the park. We are scheduling projects about three to four weeks out right now.
