## Sharing....

Growth and change are natural parts of life. We have two choices in this life, either embrace it or fight it. At Jefferson Landscaping, even though at times it may be painful, we choose to grow. Like the vegetables in our gardens that are taking root this month, we are growing, blooming and nurturing in this time of new beginnings. We choose to grow and learn through life's daily chaos, through the twists and turns at every corner. We continue to open up our windows and allow the sun to shine bright. We share our joy and our sorrow because by doing this we are opening our hearts to the changes that come as we evolve to be better in both our personal and professional lives. We recently had to make some tough decisions and Resa is no longer with Jefferson Landscaping. We have strived to make this transition completely transparent and anticipate coming through it with better systems in place to enhance your experience. We love what we do and being of service! We hope that in your time of transformation your joys are multiplied and your sorrows divided.

## June Fun Facts

In the Northern hemisphere, the beginning of the meteorological summer is 1 June. In the Southern hemisphere, the beginning of the meteorological winter is 1 June. June is known for the large number of marriages that occur over the course of the month. According to one etymology, June is named after Juno (Hera). Juno was the goddess of marriage and a married couple's household, so some consider it good luck to be married in this month. June Birthdays claim two birthstones: pearl and alexandrite, both represent loyalty and friendship.
